About This Software

Bob's Track Builder Pro allows you to create tracks using simple mouse clicks to form the underlying track mesh ready to be imported into popular car racing games and raced on against your friends.

It takes just minutes to create a track instead of the hundreds of hours in other packages.

Features:

- Spline based editing to create the layout.
- Add 3d objects via a simple interface.
- Export to games with the click of a button.
- Complex ripple strips, tyre walls and trees can be added in seconds.
- Import laser scanned Point Cloud data for ultra-realistic tracks (read more).

Supports:

- rFactor
- Richard Burns Rally
- Racer
- DirectX (for import into other 3d tools)

it would be ok if it do tracks for assetto corsa. Works pretty great for what it is. Some of the settings aren't super intuative, it takes some time and playing around to learn each tool. I've used it for Richard Burns Rally, and its very easy to make stages. The detail is time consuming, but its really easy to lay a track out and test it as you go.
